

Are you suffering from Fibromyalgia?

You may be eligible to participate in a research study if you:

- Have a diagnosis of Fibromyalgia
- Female, ages 18-65
- No serious heart conditions
- No certain medical conditions
- Not taking certain types of medications

This brain imaging study evaluates peoples' responses to painful stimuli as well as brain changes in response to psychological treatments.

There are 4-6 research visits including 1 to 3 MRI Scans, as well as 8 weekly therapy meetings.

Compensation up to \$500 is provided

Study takes place at Brigham & Women's Pain Management Center, 850 Boylston St., Chestnut Hill, and at the Martino's Center for Biomedical Imaging, Massachusetts General Hospital
