

Study Title: Metabolic Profiles of Salivary and Epidermal Biomarkers for Sjögren's Diagnosis
PI: Alt-Holland Addy, PhD
Version Date: 12.2.21

Tufts University School of Dental Medicine
Research Study Seeking Volunteers

Metabolic Profiles of Salivary and Epidermal Biomarkers for Sjögren's Diagnosis

Description: The Department of Endodontics and the Department of Public Health Research and Oral Medicine of Tufts University School of Dental Medicine is doing a non-invasive research study collecting sweat and saliva samples to improve our understanding of signs of Sjögren's.

We are seeking Sjögren's patients and healthy volunteers who are:

- 30-80 years old.
- Able to arrive to a morning session appointment (9am-12pm).
- Not enrolled in interventional clinical trials currently or in the past 3 months.
- Willing to complete a demographic and medical history form and an oral exam.
- Willing to provide a sweat-based sample and a saliva sample.

The study includes 1 visit. Upon completion, you will receive a \$25 Target gift card.

If you have any questions, or think you may qualify to participate please contact:
Dr. Addy Alt-Holland and Dr. Mabi Singh at Tel: **617-636-2408**. Thank you!
